Product Details

Our custom postcards can be used as cost-effective promotional mailers, for tourist attractions, and even for artists and illustrators to sell their work to fans. No matter what you need custom postcard printing for, high quality materials that stand up to the wear and tear of going through the mail and vivid ink to create bold, eye-catching images are a must.

When you choose EnvironPrint for postcard printing, you'll get all that and more. We offer a more customized printing experience than you'll find anywhere else, with an endless number of sizes and personalized service to allow you to create postcards to your exact specifications. Even better, our printing process has minimal environmental impact, so you can feel good knowing that you're making the best choice for the planet too.

Highlights of our custom postcards include:

- Choose between 3 preset sizes or select your own
- Printing on both sides included in price
- Vibrant full color digital printing
- Water-based ink with no solvents
- Fast turnaround times

Custom Postcard Printing Options

When we say custom, we mean it! Download our file templates to design your postcards and choose your desired size. To help get you started, here are some of the most common sizes used by our customers:

- 6" x 4" horizontal

- 4" x 6" vertical

To choose a different size than those listed above, simply enter the measurements you'd like in the height and width fields.

Paper Type

- Economy Cardstock (14pt)
- Standard Cardstock (16pt)
- Premium Cardstock (18pt)
- Ultra Premium Cardstock (24pt)

Finishes

- **Gloss** - Gloss is the go-to choice for postcards featuring photographs.
- **Matte** - If your postcard features simple illustrations or text, a matte finish makes a statement.
- **Soft-Touch Matte** - Our premium matte option upgrades standard matte with a velvety texture and more tactile appeal.
- **High Gloss UV** - Make a bold statement with a highly-reflective gloss UV finish that adds depth and dimension to graphics and photos.

Ideas for Using Postcards

The possibilities are endless when it comes to custom postcards. Here are some of the many ways our customers use them.

- Tourism
- Art and photography
- Thank you notes
- Promoting sales and events
- Coupons and discounts
- Appointment reminders
- Trade show or convention giveaways
- Following up with existing or potential customers
- Invitations
- Business and personal announcements

Frequently Asked Questions About Custom Postcard Printing

What type of paper are EnvironPrint postcards printed on?

Our postcards are printed on your choice of three paperstock options: 14 pt, 16 pt, or 18 pt. For tourism and art postcards that will likely be saved by the recipient, choose the thickest paperstock option.

What finish should I choose for my postcards?

If your postcard is being sent as part of a promotion, a gloss finish on both sides is common. For a traditional postcard used for personal correspondence, the standard finishes are matte on one side for writing on and a gloss finish on the other side.

Can I have postcards printed in a size not listed?

Absolutely! EnvironPrint offers a completely custom postcard printing process. To set your own postcard size, simply select the blank option in the drop-down menu for size, then type in the width and height you need in the text fields below.

Can I print on both sides of EnvironPrint postcards?

Yes, two-sided printing is included in the cost of custom postcards. If you don't need printing on both sides, consider having notecards printed instead.

How can I design my own postcards?

Download our customizable file template to create your postcard design, then upload it to our website when you're ready to place your order. Even if you don't have a graphic designer, creating your own postcards is easy. Feature a photograph or illustration on one side and leave space for a message, address, and stamp on the other.

Can you print the addresses of the recipients on my postcards?

If you need to have the recipients' addresses printed on your postcards, contact us for more details; this type of printing will require a custom order.

Are other postcard shapes available?

Yes! Choose rounded corners for a subtle customization or make a statement with a round or oval postcard—just remember that it may need extra postage when you send it in the mail.

Will you print postage on my postcards?

No, we cannot print postage on your postcards, but we can print Every Door Direct Mail (EDDM) retail indicia on your postcards. This indicia can be downloaded from the United States Postal Service (USPS) website and incorporated into your postcard design.

Are your postcards suitable for EDM?

Our postcards are printed custom for each of our customers. If you want to ensure that your postcard can be used for an EDM campaign, make sure you or your graphic designer follow the guidelines on the USPS website and choose the appropriate specifications to meet their requirements.

What is the minimum quantity of postcards that I can order?

At EnvironPrint, our minimum order quantity for postcards is one. This allows you to order a sample postcard to ensure that you're pleased with the design and finish before you order a large quantity.

How long will it take to get my custom postcards?

If you need custom postcard printing fast, EnvironPrint will deliver! When you place your order, choose premium shipping for delivery in 1 to 2 days after printing is complete or view our shipping rates and delivery estimates for other options. If you are on a tight deadline and you need your project extremely quick, please call us immediately at 682-252-0578. We are happy to help no matter how tight the deadline.

Why Choose EnvironPrint for Postcard Printing

EnvironPrint offers a more sustainable alternative to traditional digital printing. Our commitment to reducing our environmental footprint includes using recycled materials, solvent-free water-based ink, and innovative digital dies. We've been exceeding our customers' expectations with our fast turnaround, exceptional value, and responsive service. Order your custom postcards today and find out why EnvironPrint is the internet's leading provider of planet-friendly printing.
