#PROMO SALE - Business Cards

Product Details

EnvironPrint is currently offering a major promotion sale for business cards! These cards come with many different Business Card templates. Choose a template by clicking the blue "Browse Templates" button.

We wanted to provide our customers the ability to have high quality business cards, at a price that doesn't break the bank, and gets your name out quickly.

The Sale:

1. Simply select between the quantities of 250, 500, and 1,000 cards
2. All promotional business cards are printed on 16pt cardstock, most cards today are printed on 14pt or a thinner version of our cardstock.

- We want to make sure your cards look the best they can! 3. We only offer 1-sided printing on the Promo Cards with a backing that will allow you to take notes easily with a pen.

4. Feel free to select from Square or Rounded corners

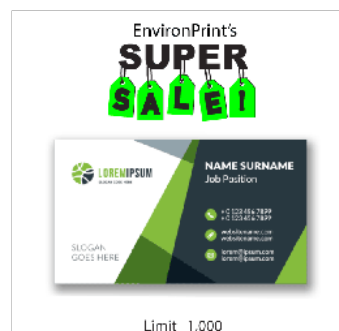

5. We offer 3 types of finishes as well

- **Gloss** - Consider gloss the gold standard for business cards. With a slight sheen and a bit of reflection, gloss is the most common finish choice for business cards.

- **Matte** - Matte finish has no glare or shine. It's a good fit for business cards that rely upon text and simple illustrations to get their point across.

- **Premium Soft-Touch Matte** - With its velvet texture, elegant appearance, and tactile appeal, our premium soft touch matte option adds a luxe look to your business cards.

For more options and faster deliveries, feel free to visit our other business card pages [here](#).
